

Caring Across Generations

Exploring the Key Role and Unique Needs of Caregivers

American families are struggling

**Millennials are
having children**

**Boomers want
to age at home**

**Sandwich
generation is
under pressure**

**Women are now
in the workforce**

Affordability

Doing the math for
America's families.

70% of the workforce earns less
than \$50,000 per year.

The average cost of childcare
is \$25,000 per year.

The average cost of private
nursing home care is \$100,000
per year.

1970

10%

2010

13%

2030

20%

of our population
will be over 65.

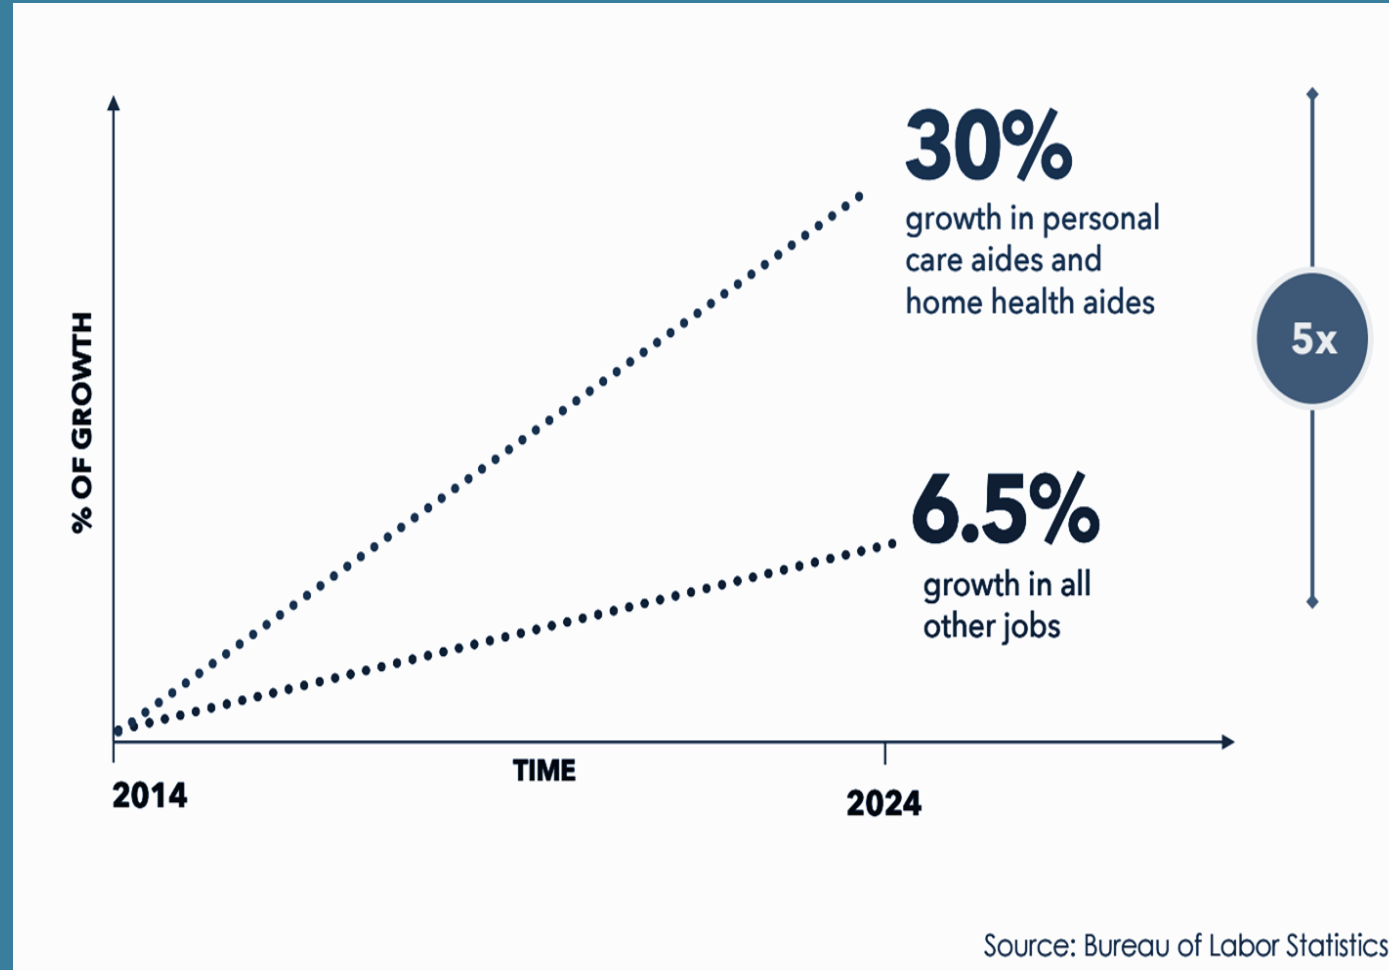

\$9/HR

30%

of home care workers
rely on public
assistance for food
security.

Care: The jobs of the future

Universal Family Care

Universal Family Care

**Elder Care
Child Care
Paid Leave**

One social insurance program:

- Everyone contributes to
- Everyone can benefit from
- Helps people afford care
- Allows for an infusion of money into our care systems, to support professionalizing and stabilizing the care workforce

State Models for Care

Maine

Homecare for All

This November, Mainers will vote on the ballot initiative, which would create a dedicated fund to provide in-home care for all seniors, provide supports to family caregivers, and increase care worker wages.

Hawaii

Kupuna Caregivers Program

The program, signed into law in July 2017, provides \$70/day to family caregivers to provide care for their aging loved ones. Funding for the program doubled to 1.2 million in 2018.

Washington

Long-term Care Trust Act

This program would provide \$100/day benefit to individuals in need of care, in the setting of their choice. The 2018 legislation gained broad bipartisan support and will be proposed again in 2019.

Field Advocacy:

Study Bills Single-payer Healthcare

Long-term care study bills:

- California, Illinois, Michigan

Inclusion of long-term care in single-payer healthcare advocacy:

- Iowa, New York

Other field partner states:

- Minnesota, Oregon, Rhode Island, Wisconsin
