

Lessons from the Pandemic: Telehealth and Clinical Research

David R. Spiegel, M.D., FASCO
Chief Scientific Officer
Sarah Cannon Research Institute
Medical Oncologist
Tennessee Oncology
Nashville, TN

Telehealth and Clinical Research: Runs Scored

- Study Selection / Activation
- Patient Screening, Enrollment, Study Assessments
- Study Monitoring, Data Access, Regulatory Oversight
- Colleague Engagement

Telehealth and Clinical Research: Strikes

- Technology and Fatigue
- Need for In-Person Clinical Assessment
- Potential Risks of Being 100% Remote

Telehealth and Clinical Research: Looking Ahead

- More Efficient Research
- Lower Costs of Research
- Improved Patient Experience in Research
