Meeting Objectives:

- To provide a shared understanding of the committee's proposed framework for meeting the respiratory protection needs of the public.
 - Engage with federal partners and other key stakeholder organizations to:
 - Hear stakeholder responses to the National Academies report and its recommendations related to respiratory protection for the public.
 - Identify pressing needs to ensure better preparedness and protections for the public during future emergencies requiring respiratory protection.
 - Discuss the practical considerations of implementing the committee's framework, with a specific emphasis on the identification of current work or programs that could be leveraged and expanded on to have immediate impact.
-
