### **About the Business Engagement in Obesity Solutions Innovation Collaborative (BEOS IC):**

The Business Engagement in Obesity Solutions Innovation Collaborative is an ad hoc activity associated with the Roundtable on Obesity Solutions at the National Academies of Sciences, Engineering, and Medicine (The National Academies). This ad hoc convening activity fosters information sharing and collaboration toward the Roundtable aims as well as progress on findings highlighted in prior National Academies reports. It promotes business engagement strategies for obesity prevention and treatment with a focus on the health and economic well-being of companies, workers, and their communities. The Collaborative's purpose is to catalyze and facilitate private sector partnerships and actions of multiple sectors to work together to enhance the lives of workers by improving the nation's health through prevention and access to obesity care. ### **About the Roundtable on Obesity Solutions (ROOS):**

Established in 2014, the Roundtable on Obesity Solutions brings together diverse sectors and voices to solve the obesity crisis. Through meetings, public workshops, publications, and innovation collaboratives, the Roundtable fosters an ongoing dialogue on critical and emerging issues in obesity prevention, treatment, and weight maintenance. The Roundtable explores the science, evidence, evaluation, and innovation efforts that advance progress in reducing the impact of obesity, as well as applies effective equity strategies to address obesity-related disparities. Utilizing a policy, systems, and environmental change lens, the Roundtable explores and advances effective solutions.
