DRAFT AGENDA

Established in 2014, the Roundtable on Obesity Solutions brings together diverse sectors and voices to solve the obesity crisis. Through meetings, public workshops, publications, and innovation collaboratives, the Roundtable fosters an ongoing dialogue on critical and emerging issues in obesity prevention, treatment, and weight maintenance. The Roundtable explores the science, evidence, evaluation, and innovation efforts that advance progress in reducing the impact of obesity, as well as applies effective equity strategies to address obesity-related disparities. Utilizing a policy, systems, and environmental change lens, the Roundtable explores and advances effective solutions.

The Health and Medicine Division (HMD) is a division of the National Academies of Sciences, Engineering, and Medicine (the Academies). The Academies are private, nonprofit institutions that provide independent, objective analysis and advice to the nation and conduct other activities to solve complex problems and inform public policy decisions related to science, technology, and medicine. The Academies operate under an 1863 congressional charter to the National Academy of Sciences, signed by President Lincoln. See more at: <http://nationalacademies.org/obesitysolutions>
