

Presentation To The Committee Of The
National Academies Of Sciences, Engineering,
And Medicine

*Clinical Utility Of Treating Patients With
Compounded “Bioidentical Hormone
Replacement Therapy”*

Gina Besteman, R.Ph.
Director of Compounding and Dispensing
Women’s International Pharmacy
November 12, 2019

Over the course of its existence,
Women's International Pharmacy has
compounded ***over 149,000 unique
hormone formulations*** using less than
10 hormones in individualized
strengths and dosage forms.

This number grows every day.

Why would 149,000 plus different combinations of bioidentical hormones and dosage forms be needed?

- Hypothyroidism
- Inflammatory Gut and Digestive Diseases/Syndromes
- Inability to Swallow
- Allergies or Sensitivities
- Inability to Convert Hormones within the Body
- Transitioning Transgender Patients

Thank You

Gina Besteman, R.Ph.
