

# **#WeCount: Abortion Volumes post-*Dobbs***

National Academies

Jenny O'Donnell, ScD, MS

October 2023

**The Society of Family Planning  
is the source for abortion and  
contraception science.**

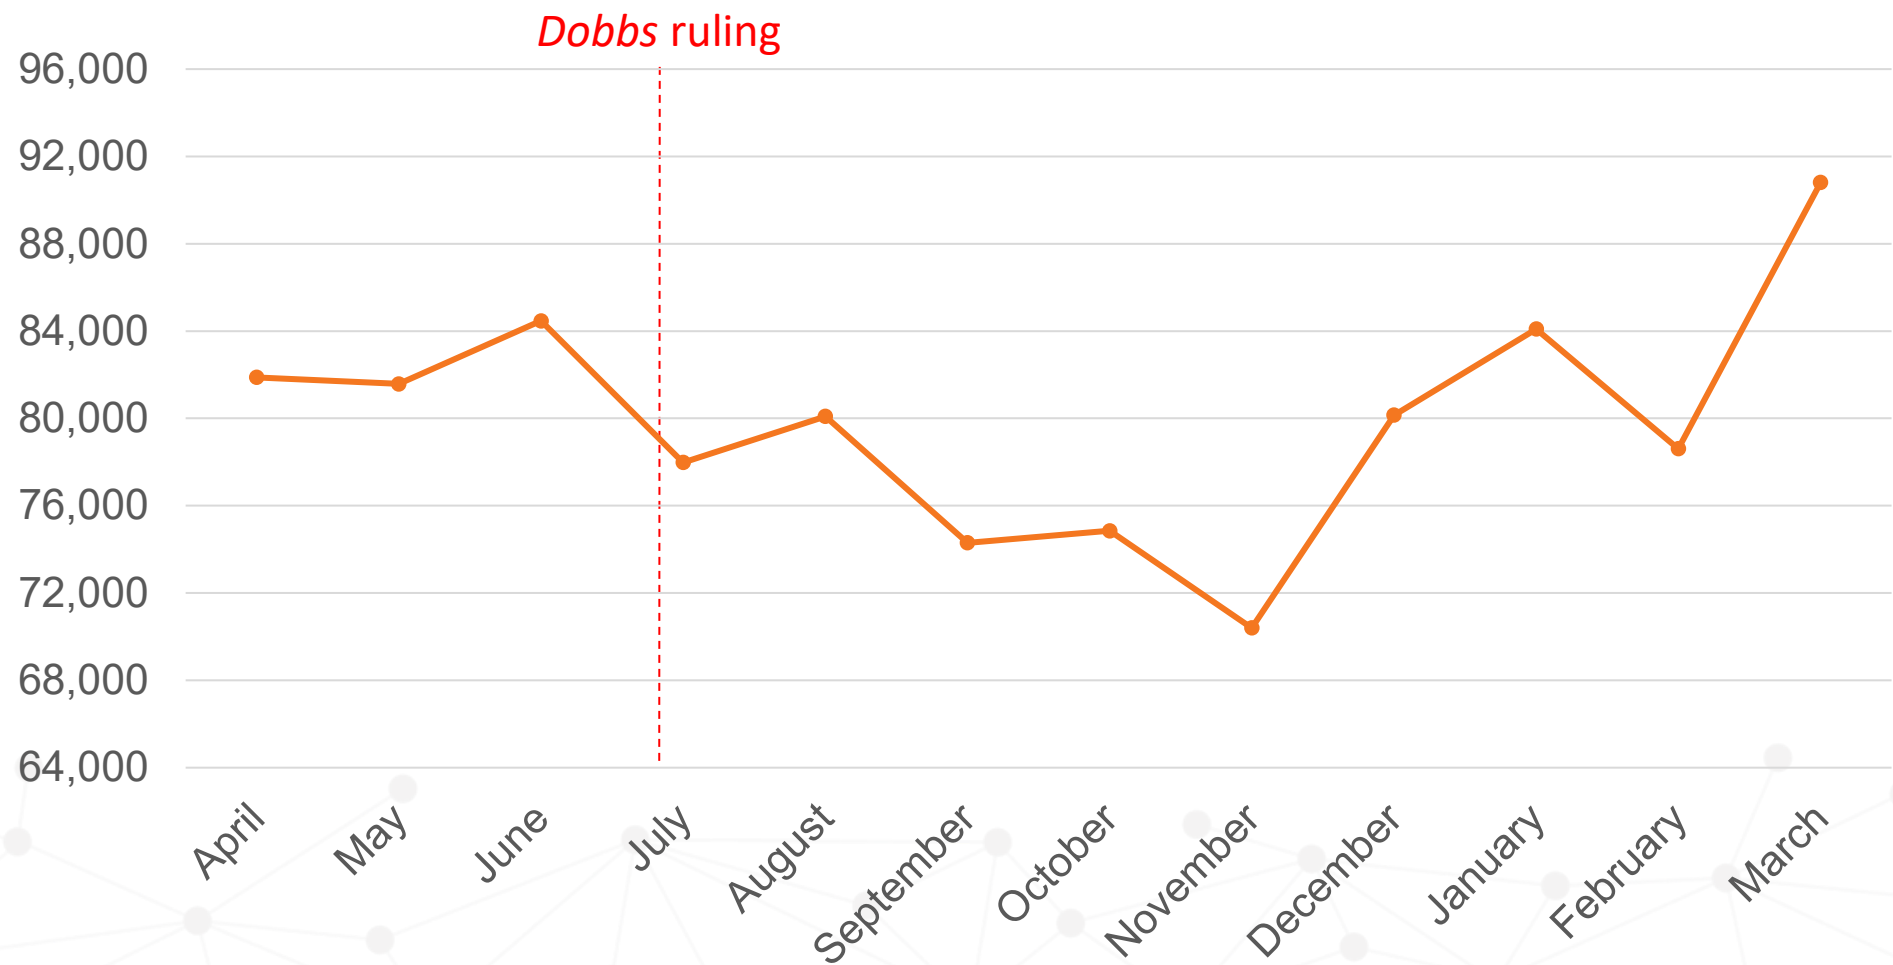

**Month-to-month  
volatility**

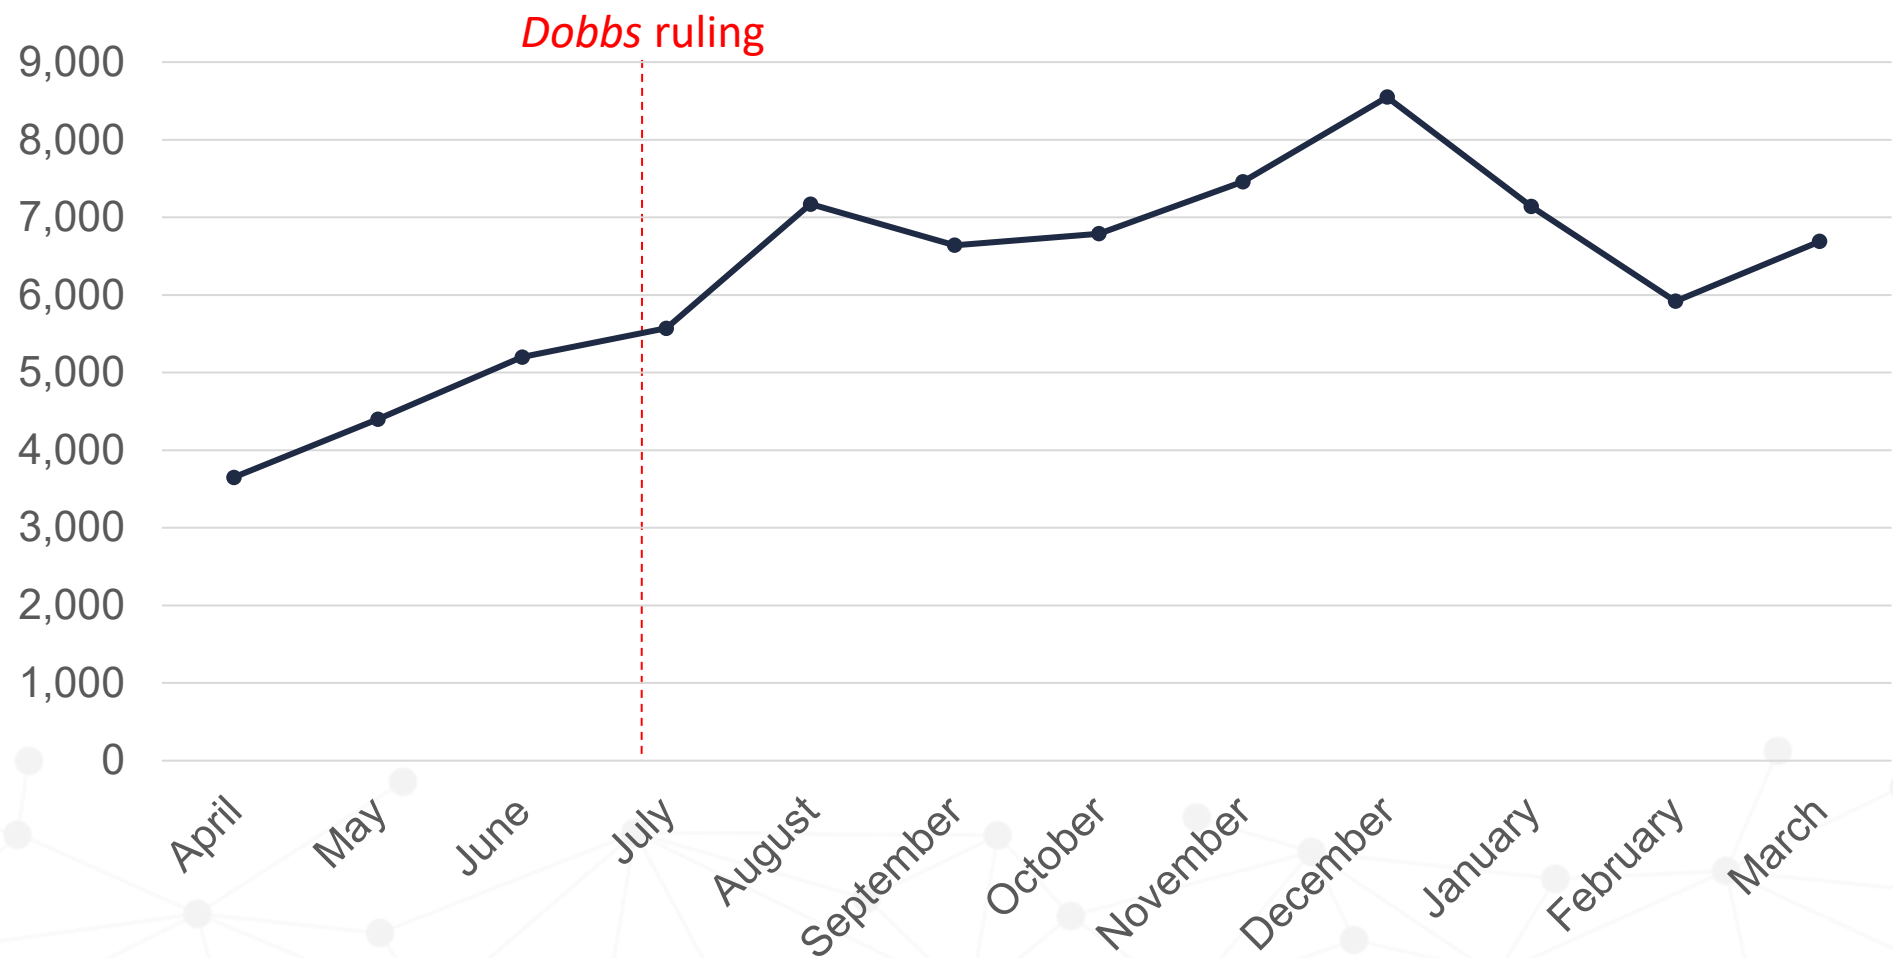

**Number of abortions  
increasing?**

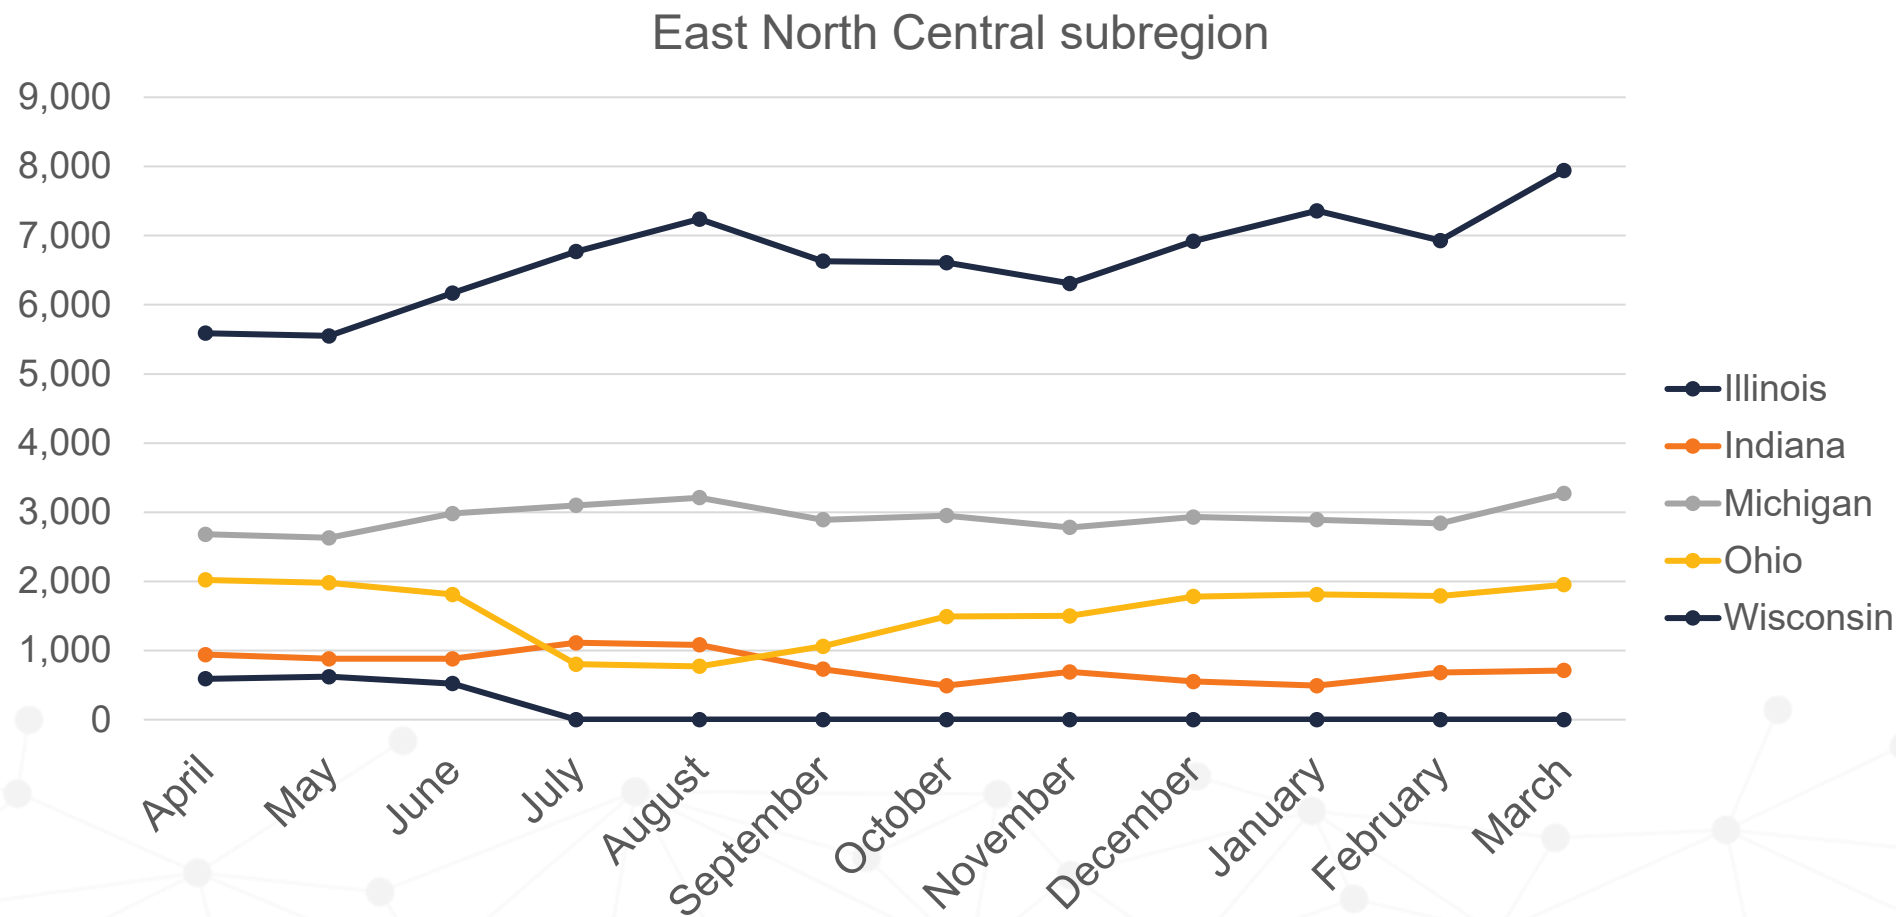

# Abortions by month across the US

# Abortions by online-only providers

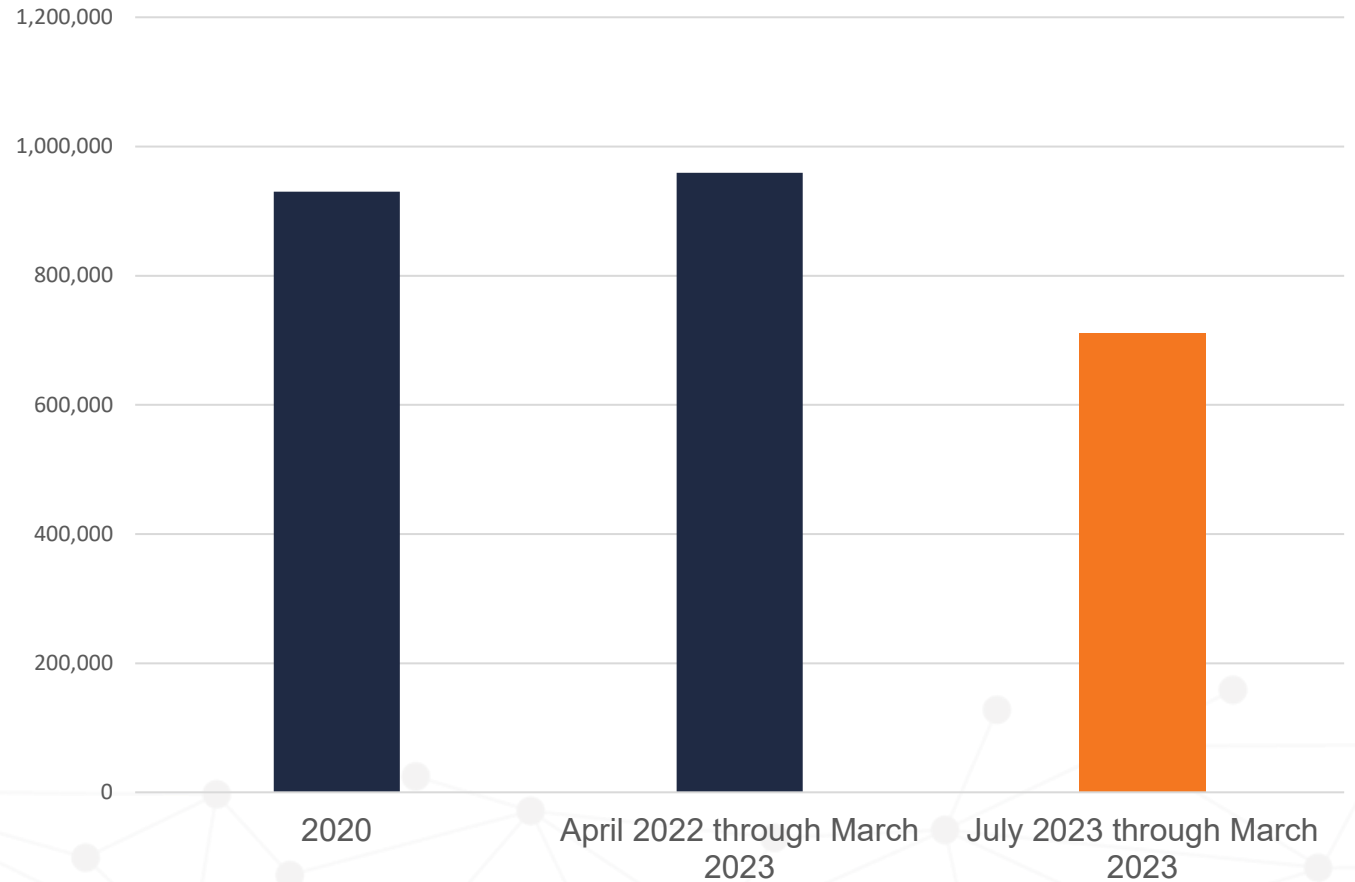

# Number of abortions per month, East North Central subregion

# Annual abortion volume

- **2020:**
  - **930,160** abortions were provided in clinical settings, an 8% increase from 2017
  - Guttmacher, 12 months
- **April 2022 through March 2023:**
  - **959,210** abortions were provided within formal healthcare settings
  - #WeCount, 12 months
- **July 2023 through March 2023:**
  - **711,280** abortions were provided within formal healthcare settings
  - #WeCount, 9 months
  - This number plus 25% = estimated 948,370 abortions per year

# Only possible because of the SFP community

We believe in just and equitable abortion and  
contraception informed by science.
