

Principles and Framework to Guide the Development of Protocols and Standard Operating Procedures for Face and Hand Transplants

AGENDA: Roundtable Discussion with CONSORT Participants

[CLICK HERE TO JOIN](#)

Friday, June 21, 2024, 11 AM to 1 PM EST

OPEN SESSION

OBJECTIVES:

- Hear directly from CONSORT participants
- Understand the current state of protocols and/or standard operating procedures for face and hand transplants
- Identify any anticipated challenges or potential conflicts in the development of clinical protocols and/or standard operating procedures for face and hand transplants
- Discuss principles and strategies towards ensuring responsible, ethical, scientifically informative, and clinically effective application of face and hand transplantation

11:00 – 11:05 Opening Remarks and Welcome

Kenneth W. Kizer, Committee Chair

11:05 – 11:25 Comments from CONSORT Face Transplant Network Site Representatives

Due to time constraints, we ask that each center limit their initial remarks to five minutes.

Discussion Questions:

- *What should the committee consider as it develops the principles and framework to guide the development of clinical protocols/SOPs for face transplants?*
- *What are the issues, if any, that may cause the most conflict during the development of the clinical protocols/SOPs for face transplantation?*
- *Are there any components of your current protocol that are critical to be included in the clinical protocols/SOPs for the face transplant clinical trial?*
 - Curtis Cetrulo, Cedars Sinai
 - Frank Papay, Cleveland Clinic Foundation
 - Carisa M. Cooney, Johns Hopkins
 - Bruce Gelb, NYU Langone

11:25 – 11:55 Comments from CONSORT Hand Transplant Network Site Representatives

Due to time constraints, we ask that each center limit their initial remarks to five minutes.

Discussion Questions:

- *What should the committee consider as it develops the principles and framework to guide the development of clinical protocols/SOPs for hand transplants?*
- *What are the issues, if any, that may cause the most conflict during the development of the clinical protocols/SOPs for hand transplantation?*
- *Are there any components of your current protocol that are critical to be included in the clinical protocols/SOPs for the hand transplant clinical trial?*

- Jamil R. Azzi, Brigham and Women's Hospital
- Curtis Cetrulo, Cedars Sinai
- Frank Papay, Cleveland Clinic Foundation
- Carisa M. Cooney, Johns Hopkins
- Bruce Gelb, NYU Langone
- Christopher Jones, Christina Kaufman, and Allan Ramirez, University of Louisville
- L. Scott Levin, University of Pennsylvania

12:00 – 1:00 Roundtable Discussion with CONSORT Network Sites and Collaborators

1:00 PM Adjourn Open Session
