

*Patient Lived Experience Panel questions:*

- 1) How has living with a chronic condition impacted your life?*
- 2) What were the most significant barriers you faced in your journey as a patient and patient advocate?*
- 3) Based on your experience, how can the health care system be changed to improve patient diagnosis, care, and outcomes?*
- 4) On what areas should scientists and researchers focus their efforts to have the greatest impact on the health of patients affected by the chronic condition you live with?*
- 5) What advice would you give the committee as they move forward on their task of creating a future research agenda for the study of chronic conditions in women?*
