

SiX is a national resource and strategy center that collaborates with state legislators to improve people's lives through transformative public policy.

We empower, embolden and equip state legislators to build and wield community governing power by/with/for the people they represent.

We do this by providing legislators with the tools needed to shape impactful public policy and building their capacity to lead with their constituents.

The **Reproductive Freedom Leadership Council (RFLC)** is the nation's only cross-state network of state legislators who support reproductive health, rights, and justice.

There are currently **636 state legislators** from **all 50 states** in the RFLC.

RFLC legislators sign on to a vision and values statement and have access to convenings, trainings, technical assistance, press, and **research experts**.

The Reality of Being A State Legislator

**Community
Champion**

**Policy
Expert**

Spokesperson

Speechwriter

Truthteller

**Holds
multiple jobs**

Whistleblower

**Community
Organizer**

Office Manager

Coalition Builder

The Role of Research

- Regional impacts of bans, travel for care
- Hospital systems and healthcare workforce
- Criminalization of pregnancy outcomes
- Maternal and Infant health outcomes
- Medication abortion and self-managed abortion
- Impact of decision on pregnancy care, IVF, contraception, gender affirming care, young people's SRH care and more
- Rural access to abortion, contraception, care throughout pregnancy, labor & delivery
- Anti Abortion Centers and funding
- Digital surveillance and privacy

“Even in ruby red states, there are legislators who are still fighting for abortion access, and they understand the ramifications of what happened in Dobbs and what could happen in this case.”

Jennifer Driver, Senior Director of Reproductive Rights, SiX
