Tomorrow starts today

Value Chain Decarbonization

July, 20 19

Sustainable in a Generation Plan - full value chain

Reduce our environmental impacts in line with what science says is necessary to keep the planet healthy.

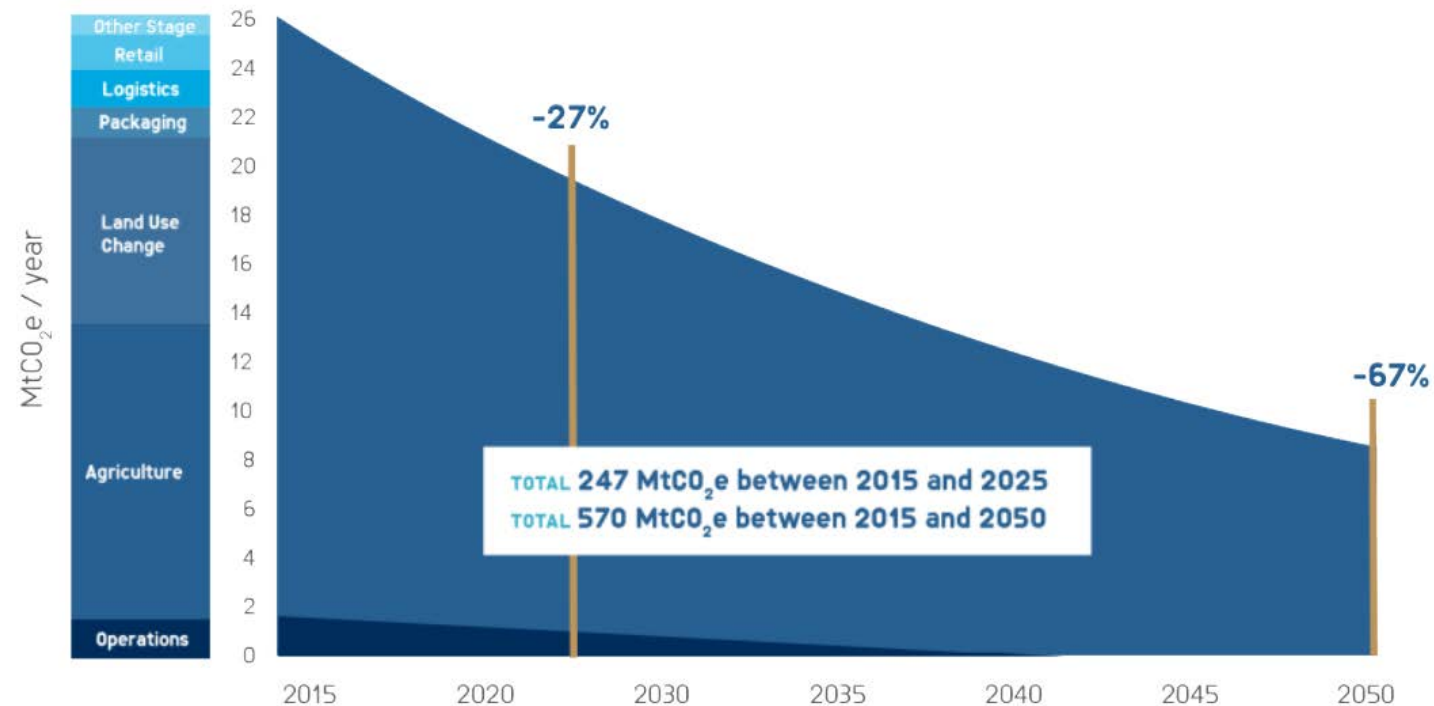

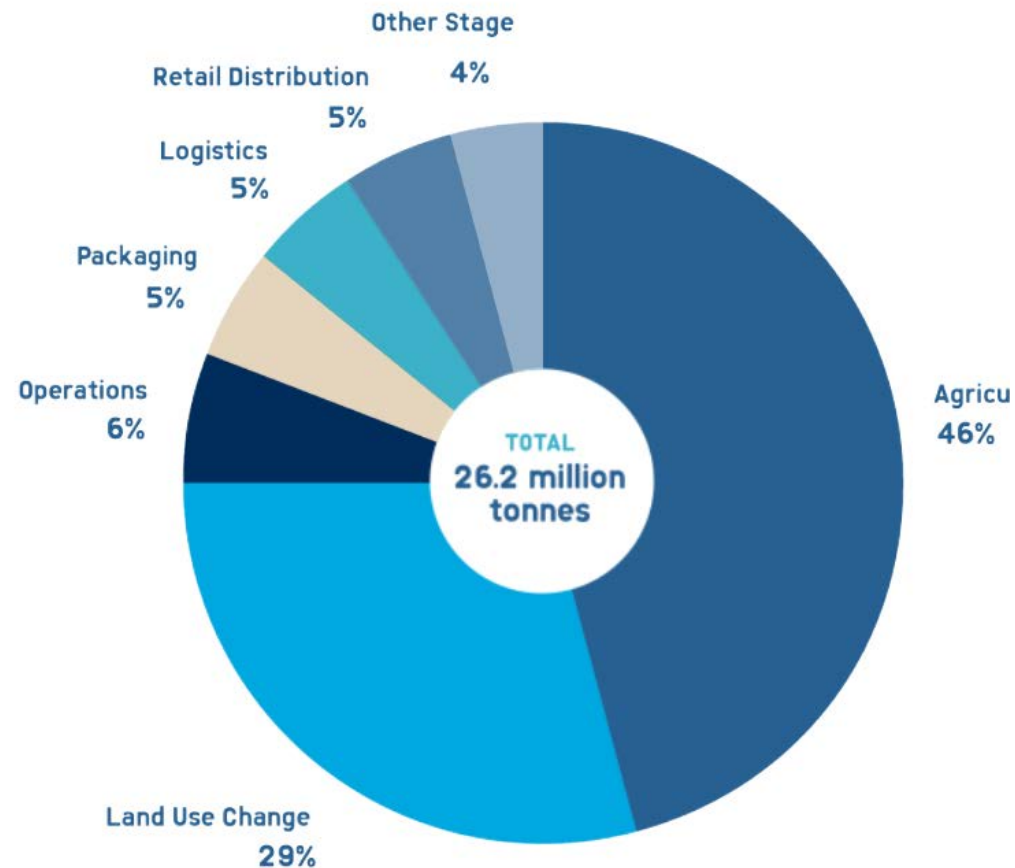

Meaningfully improve the working lives of 1 million people in our value chain to enable them to thrive.

Advance science, innovation and marketing in ways that help billions of people and their pets lead healthier, happier lives.

Climate Footprint and Glidepath

- **SBT: Reduce absolute GHG emissions across our value chain 27% by 2025 and 67% by 2050.**

From Transforming Energy to Transforming Supply Chains
