Department of Psychology

University of Oregon

NASEM Workshop:
Developing a Toolkit for Fostering Open Science Practices

UNIVERSITY OF OREGON

Groundwork

- Teaching

Groundwork

- Teaching
- Meth Lab ("Quantitative Methods Laboratory")

Hiring

Language adapted from LMU-Munich and SIPS* 2016

Our department embraces the values of open and reproducible science, and candidates are strongly encouraged to address in their statements how they have pursued and/or plan to pursue these goals in their work.

* SIPS = Society for the Improvement of Psychological Science
   improvingpsych.org

Tenure and promotion (in progress)

- Grounded in people's scientific values (and other values)

Tenure and promotion (in progress)

- Grounded in people's scientific values (and other values)
- Reforms follow from that: Reward doing science the way we think it should be done

Tenure and promotion (in progress)

- Grounded in people's scientific values (and other values)
- Reforms follow from that: Reward doing science the way we think it should be done
- Workshops to find out priorities, vet potential changes

Tenure and promotion (in progress)

- Grounded in people's scientific values (and other values)
- Reforms follow from that: Reward doing science the way we think it should be done
- Workshops to find out priorities, vet potential changes
- **Early-career perspective is crucial**

Tenure and promotion (in progress)

- Grounded in people's scientific values (and other values)
- Reforms follow from that: Reward doing science the way we think it should be done
- Workshops to find out priorities, vet potential changes
- Early-career perspective is crucial
- Inclusion: Will this work for everyone?

Tenure and promotion (in progress)
