

2020 Census Data Products: Workshop on the Demographic and Housing Characteristics Files

Committee

Elizabeth E. Garner

Co-Chair

Elizabeth E. Garner is Colorado state demographer and has directed the State Demography Office in the Department of Local Affairs since 2004. She also serves on Colorado's Governor's Revenue Estimating Advisory Committee and is a steering committee member for the Federal-State Cooperative for Population Estimates. Her work involves traveling the state talking with Coloradans about social and economic conditions brought about by population shifts. The State Demography Office applies an understanding of demographic trends to changes in a range of areas including the state's economy, workforce, education, housing, migration, and rural populations. Ms. Garner has over 25 years of experience analyzing population and economic trends in Colorado. Her current research agenda involves examining Census 2020 results, demographic impacts from COVID-19, housing supply and demand, and aging. She is an economist and has a B.A. degree in business from the University of San Diego, and an M.A. degree in agricultural and resource economics from Colorado State University.

V. Joseph Hotz

Co-Chair

V. Joseph Hotz is arts and sciences distinguished professor of economics and public policy at Duke University. He also is a research scholar at the Duke Population Research Institute, a research associate at the National Bureau of Economic Research, and a research affiliate of the University of Wisconsin Institute for Research on Poverty. A past member of the Committee on National Statistics of the National Academies of Sciences, Engineering, and Medicine (NASEM), Dr. Hotz's previous NASEM service also includes membership on the Panel on Access to Research Data: Balancing Risks and Opportunities; Panel on New Directions in Social Demography, Social Epidemiology, and the Sociology of Aging; several studies relating to the Survey of Income and Program Participation; and currently is a member of the Panel for A Roadmap for Disclosure Avoidance in the SIPP. He has a Ph.D. degree in economics from the University of Wisconsin-Madison.

Randall Akee

Member

Randall K.Q. Akee is a senior economist in the Council of Economic Advisors in the White House. Prior to this, he was an associate professor of public policy in the Department of Public Policy and American Indian Studies at the University of California, Los Angeles (UCLA), Luskin School of Public Affairs. Dr. Akee serves as chair of the American Indian Studies Interdepartmental Program at UCLA, a faculty research fellow at the National Bureau of Economic Research, a research fellow at the Harvard Project on American Indian Economic Development and at the Institute for the Study of Labor (IZA), faculty affiliate at the UCLA California Center for Population Research, and a faculty affiliate at UC Berkeley Center for Effective Global Action. His main research interests are labor economics, economic development, and migration. Dr. Akee's current research focuses on income inequality and immobility by race and ethnicity in the U.S. He has worked on several American Indian reservations, Canadian First Nations, and Pacific Island nations in addition to working in various Native Hawaiian communities. He has a Ph.D. degree in political economy from Harvard University.

Anubhav Bagley

Member

Anubhav Bagley is regional analytics director at the Maricopa Association of Governments (MAG). He is responsible for regional socioeconomic datasets, geographic information systems, census activities, population projections and estimates, and the development and maintenance of regional land use models. The regional analytics team at MAG has been leading the development of innovative online platforms for displaying socio-economic, land use, and early education maps and analytics supporting planning and economic development needs. Mr. Bagley has been with MAG in various roles for 20 years. Prior to joining MAG, he worked as an environmental and transportation consultant. Mr. Bagley has an M.A. degree in environmental planning from Arizona State University.

danah boyd

Member

danah boyd is a partner researcher at Microsoft Research, founder of the research institute (Data & Society), and a distinguished visiting professor at Georgetown University. Her research blends science and technology studies, sociology, and computer science to examine how society shapes and is shaped by sociotechnical systems, with an eye towards how inequity and societal values manifest in algorithmic and data-oriented systems. Dr. boyd serves on the boards of Crisis Text Line and the Social Science Research Council; she is a member of the Council on Foreign Relations and an advisor to the Electronic Privacy Information Center. She has received numerous awards, including the Electronic Frontier Foundation's Pioneer/Barlow Award, the American Sociological Association's Communication and Information Technology Public Sociology Award, MIT Tech Review's TR35, and a Young Global Leader of the World Economic Forum. Dr. boyd has a Ph.D. degree from the School of Information at the University of California, Berkeley.

Mary A. Craigle

Member

Mary A. Craigle is bureau chief of the Research and Information Bureau at the Montana Department of Commerce and director of the Census and Economic Information Center. She has worked in the fields of economics and research for over 35 years. She has received several governor's awards, and ran the governor's Montana Main Street Key Industry Network program for two years. Her career includes several research manager positions with the state of Montana and running her own market research small business for 14 years. Ms Craigle serves as chair of the U.S. Census Bureau's State Data Center Steering Committee, a member of Montana's Ambassadors, and co-chair of the MT Economic Developers Association Workforce Committee. She has also served as the board chair of the Montana Community Foundation, overseeing an endowment more than \$120 million. Ms. Craigle has an M.A. degree in market research from the University of Missouri, Kansas City.

Vickie M. Mays

Member

Vickie M. Mays is distinguished professor in the Department of Psychology in the College of Letters and Sciences at the University of California, Los Angeles (UCLA). She also serves as distinguished professor in the Department of Health Policy & Management, visiting scholar at the Tuskegee University Bioethics Center, director of the UCLA BRITE Center for Science, Research, & Policy, as well as special advisor to the chancellor. Dr May's research focuses on the mental and physical health disparities affecting racial and ethnic minority populations. She has received a number of awards for her lifetime work in HIV, mental health, health disparities, public policies, and most recently for her work on equity models and community activities for COVID-19 from the American Public Health Association, the American Psychological Association, and the American Foundation for AIDS Research. She is currently a congressional appointee to the National Committee on Vital and Health Statistics, where she is co-chair on data collection, capacity and quality of SOGI, and SDOH data elements. Dr. Mays has an MSPH in health policy and health services from UCLA's Fielding School of Public Health, and a Ph.D. degree in clinical psychology from the University of Massachusetts at Amherst.

Marta Tienda

Member

Marta Tienda is Maurice P. Daring '22 professor in demographic studies, professor of sociology and public affairs emerita, and is a visiting senior scholar at the Center for Research on Child Wellbeing at Princeton University. She is president of the American Academy of Political and Social Science, past president of the Population Association of America, served as chair of the NRC Panel on Hispanics, and served on the NRC Panel on the Economic and Fiscal Impacts of Immigration. Currently, Dr. Tienda serves as an independent trustee of the Teachers Insurance Annuity Association (TIAA), the Urban Institute, the Holdsworth Center for Excellence in Education, and the Robin Hood Foundation. Her research focuses on race and ethnic differences in various metrics of social inequality—ranging from poverty and welfare to education and employment—to address how ascribed attributes acquire their social and economic significance. Dr. Tienda has a B.A. degree in Spanish from Michigan State University, and M.A. and Ph.D. degrees, both in sociology, from the University of Texas at Austin.

Jan Vink

Member

Jan Vink is extension associate of policy analysis and management in the College of Human Ecology at Cornell University. He represents New York State in the Federal State Cooperative on Population Estimates (FSCPE) and currently chairs that cooperative. Mr. Vink makes demographic data more accessible through PAD's website, regularly publishes white papers on local demographic trends, and holds conversations with many stakeholders throughout the state. Mr. Vink also produces population projections for the New York counties. In 2021, the Census Bureau invited him to participate in the Summer at Census program, where he talked about measuring accuracy in the differential private demonstration data sets and beyond. He has an M.A. degree in econometrics from the University of Groningen, Netherlands.
